

# PreciMA 500

Measuring unit for wet hose delivery

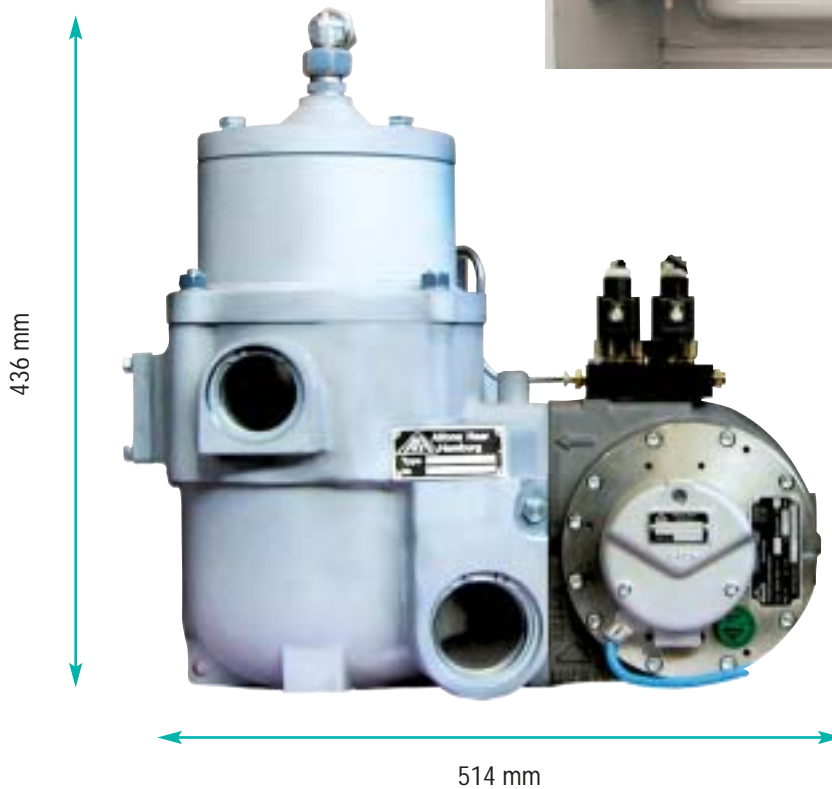

## Low-cost Measuring unit for wet hose delivery

Wet hose delivery systems require deliveries up to 500 l/min, which is now ideally handled by the small and light weight measuring unit PreciMA 500.

Minimum weight,  
maximum delivery

- Increase of payload because of **low system weight** (approx. 28 kg)
- **Minimum space requirement**
- **Simple and fast product change** facilitated by the self-priming vane pump in conjunction with the PreciMA 500

# PreciMA 500

Measuring unit for distribution

## Fully balanced system

SELF-PRIMING VANE PUMP FP 65 WITH MEASURING UNIT  
THE PERFECT LOW-COST SOLUTION

- 1 PreciMA 500
- 2 Self-priming vane pump FP 65
- 3 Electronic counter head ELZ
- 4 Ticket printer
- 5 optional mechanical register
